

# **PILGRIMS AFRICA HEALTH FOUNDATION**

## **VISION:**

To be the leading Non for Profit Organization in the global campaign to leave the needy, the very needy of the world better than we meet them.

## **MISSION:**

To partner with men, women, organizations and governments of goodwill to build bridges of love amongst the people through charity that the world may become a better place for all.

## **CORE VALUES:**

### **a. LOVE:**

Love is the greatest weapon of war for only love will forestall war.

Love is the only force that determines a good neighbor.

Love is the instrument that promotes selflessness.

Love is the spirit behind sharing

Love does not remember self

Love is the power of charity

Love connotes sacrifice

Love is life

Love is God

We are driven by love in Pilgrims to share love for the love of God through man.

### **b. EMPATHY:**

We are what we are only by grace. Anybody could have been anybody. We could have been the other man on either side. We remember the less privileged and we remember to appreciate God through them.

### **c. SERVICE:**

We believe that service is the hallmark of humility and that it takes humility to serve. A man appears smaller in the physical act of

bowing to serve but the very essence of service is encapsulated in divine mystery that promotes value.

**d. SACRIFICE:**

Sacrifice is giving beyond giving. We give when a little out of the much we have is let go. In sacrifice, we share even the very little that we have. This is the giving that provokes the heavens.

**e. CREDIBILITY:**

Credibility is the soul of life. How far we go in life and how much we are worth is about this phenomenon. In Pilgrims, we do what we say we do and we do what you trust us to do.
